eSCRIBE Paperless Solutions and Collabware announce strategic partnership to provide end-to-end process automation and records management for legislative meetings utilizing Microsoft SharePoint 2010

Markham, ON (November 8, 2011) eSCRIBE Paperless Solutions announced that it has entered into a strategic partnership with Collabware of Vancouver, British Columbia a premier provider of user-centric, enterprise content lifecycle and records management solutions based exclusively on Microsoft SharePoint 2010.

As part of the agreement, eSCRIBE's award winning integrated paperless meeting management solution for Microsoft SharePoint 2010 has been integrated with Collabware's out-of-the-box records management capabilities setting new standards for full-lifecycle legislative meeting and records management process automation.

"SharePoint is quickly becoming the business integration platform go-to choice for public sector organizations and with eSCRIBE and Collabware, customers can be up and running with end-to-end process automation, in less than one day, for a fraction of the cost and without the ongoing risks of a custom development project," said Graham Sibley, CEO, Collabware.

"We are pleased to be partnering with Collabware who has done for records management what we have done for paperless meetings" added Robert Treumann, President and CEO, eSCRIBE. "The combination of eSCRIBE' s fully-configurable meeting features and Collabware's user-centric records management automation is unparalleled, for governments looking to improve efficiency and reduce their environmental foot-print," he added.

As part of the partnership both organizations will be jointly selling and marketing their solutions to local governments across Canada and the United States, both directly, in addition to their respective strategic partner organizations.

The companies have scheduled online webinars to showcase their solution to potential end users and partners as detailed below.

About eSCRIBE Solutions

eSCRIBE is Microsoft Gold certified, Canadian independent software vendor (ISV) of Paperless Governance and Meeting Management Solutions built exclusively for Microsoft SharePoint and the Office client suite. With eSCRIBE' s robust user configurable meeting management engine and award winning SharePoint integration, it is quickly becoming the go-to choice of public and private sector boards, committees and councils looking to improve efficiency, transparency and accessibility while at the same time demonstrating environmental responsibility by reducing the consumables used to manage local government.

As part of its solutions focus, eSCRIBE's internal team of professional project managers, business consultants, software engineers, quality assurance testers, and documentation experts are specialists in a number of core Microsoft technologies and do not outsource or subcontract any of the development, support or enhancement of its products.
