eSCRIBE – Signs Strategic Partnership with Ottawa based ISI Global Webcasting to integrate video streaming with its industry leading paperless meeting management solutions

Markham, ON (February 1-2011) eSCRIBE Solutions announced that it has entered into a strategic partnership with ISI Global Webcasting of Ottawa Ontario a premier provider of live and on demand audio and video webcasting to government, education, professional sports and corporate clients across Canada.

As part of the agreement, eSCRIBE's popular paperless meeting management solutions for Microsoft SharePoint have been extended to allow meeting administrators to easily sync their meeting agenda's directly with the video stream located on ISI's servers at the click of a button. Once indexed, the information can be easily published to the organizations internet or intranet sites allowing both internal and external users to access audio and video content by individual eSCRIBE agenda item through any web browser 24 x 7.

"We are pleased to be partnering with ISI Global a 100% Canadian company who is already providing their services to government organizations including the Legislative Assembly of Ontario, the City of Ottawa and University of Toronto" said Robert Treumann, President eSCRIBE Solutions. "Additionally, with ISI Global, organizations can be assured that all of their data will remain in Canada and not be hosted in datacenters in the United States or Europe as with many competitive meeting management solutions."

"It's our ability to adapt media production and delivery services to the most challenging situations which sets us apart from our competitors." added Bengt Neathery, President ISI Global Webcasting. "We are excited to partner with eSCRIBE Solutions to extend our capabilities from the delivery of multimedia to also include the relevant meeting management processes."

As part of the partnership both organizations will be jointly selling and marketing their solutions to vertical markets across Canada and setting new standards of combining paperless meeting management with multi-media content.

About eSCRIBE Solutions

eSCRIBE Solutions is a Microsoft Certified independent Canadian software development and integration firm located in Markham, Ontario Canada and the makers of eSCRIBE a family of Paperless Agenda and Meeting Management Solutions built exclusively for Microsoft's industry leading SharePoint collaboration and business integration platform and the Microsoft Office client suite. About ISI Global Webcasting

ISI is one of the most experienced live webcasting companies in the world. For the past 14 years, ISI Global Webcasting has been providing live webcasting and media hosting services to corporate and government clients alike, broadcasting a wide spectrum of events, many on short time-lines. ISI's history has been rooted in providing live mobile webcasting solution but has also evolved to include the integration and management of webcasting solutions for permanent installations. Cities such as Ottawa, Saskatoon, Thunder Bay and others have entrusted ISI's integrated webcasting platform into their Council Chambers as a method of offering transparency to constituents, further bridging the gap between residents and their municipal government.
