

eSCRIBE – Signs Strategic Partnership with Waterloo based eSolutionsGroup for Public Sector sales opportunities of its paperless governance and meeting management solutions

Markham, ON (April 8, 2011) eSCRIBE Solutions announced that it has entered into a strategic partnership with eSolutionsGroup of Waterloo, Ontario, a premier provider of technology solutions, branding and communication services for municipal, not-for-profit and private sector firms.

As part of the agreement, eSCRIBE's popular paperless governance and meeting solution for Microsoft SharePoint has been extended to integrate with eSolutionsGroup's Agendas, Meetings and Minutes Module, which will allow website visitors to search all meeting documents by keyword, subject and document date. Administrators can manage the documents available on a website or intranet, and create new documents, update and delete existing documents. Additionally, all content generated can be accessed by screen readers ensuring adherence to current and evolving web-accessibility standards.

"We are pleased to be partnering with eSolutionsGroup, a Canadian company already providing their web, creative and hosting services to numerous public sector organizations," said Robert Treumann, President eSCRIBE Solutions. "This is a further validation of eSCRIBE's ability to streamline meeting management for administrators in the wake of increased transparency and accountability requirements."

According to Karen Mayfield, President, eSolutionsGroup, "Our solution assists website visitors with finding their relevant documents more efficiently, and saves time for meeting administrators who are ultimately responsible for compiling and publishing reports for public access. Collaborating with eSCRIBE brings together the rich capabilities of paperless meeting management behind-the-scenes with online access to these important documents."

As part of the partnership both organizations will be jointly selling and marketing their solutions to public sector markets across Canada and setting new standards of combining paperless meeting management with multi-media web content.

About eSCRIBE Solutions

eSCRIBE Solutions is a leading Canadian independent Microsoft Certified software development and integration firm located in Markham, Ontario Canada. They are the makers of eSCRIBE, a family of Paperless Governance and Meeting Management Solutions built exclusively for Microsoft's industry leading SharePoint collaboration and business integration platform and the Microsoft Office client suite. eSCRIBE can assist public or private sector board, committee or council members and administrators looking to efficiently improve

transparency and governance while at the same time promoting environmental sustainability. For more information on eSCRIBE's features and benefits, visit www.escribecorporate.com.
